Dear FCC:I benefit from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand, deserve and am willing to pay for. Thousands of truckers need immediate traffic and weather services to prevent delays that are passed along to consumers. Our time is money, the public's money.
